

# OMIDRIA<sup>®</sup> (phenylephrine and ketorolac intraocular solution) 1% / 0.3%

## Storage and Preparation Requirements

The following information is provided to help integrate OMIDRIA into your operating routine.

### OMIDRIA DILUTION AND STORAGE<sup>1</sup>

#### Prior to dilution

- Store at 20°C to 25°C (68°F to 77°F)
- Protect from light

#### Easy to integrate into routine operating procedures

- Add preoperatively to irrigating solution

**Do not use if the solution is cloudy or contains particulate matter.**

**After dilution, product can be stored:**

**Up to 4 hours**  
at room temperature

**Up to 24 hours**  
if refrigerated

### PREPARATION AND ADMINISTRATION OF OMIDRIA

- Add preoperatively to irrigating solution
  - One 4-mL single-patient-use vial to 500 mL ophthalmic irrigating solution
  - No other preparation required
  - Can be added to irrigating solution in the surgical suite
  - No calculations—preparation is the same for every patient
- Additionally, you may place an OMIDRIA container sticker, which is available from your OMIDRIA sales representative, on the container of diluted irrigating solution

### IMPORTANT SAFETY INFORMATION

Systemic exposure of phenylephrine may cause elevations in blood pressure. The most commonly reported ocular adverse reactions at  $\geq 2\%$  are eye irritation, posterior capsule opacification, increased intraocular pressure, and anterior chamber inflammation. OMIDRIA must be added to irrigating solution prior to use.

Please see the Full Prescribing Information for OMIDRIA at [www.omidria.com/prescribinginformation](http://www.omidria.com/prescribinginformation).

You are encouraged to report Suspected Adverse Reactions to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch), or call 1-800-FDA-1088.

# Less stress. Pure success.

Choose FDA-approved OMIDRIA to experience **less stress**<sup>2</sup> in your O.R. day and **deliver better outcomes** for your patients

OMIDRIA is:

- The first and only NSAID-containing product approved by FDA for intraocular use
- Preservative-free and bisulfite-free<sup>1</sup>
- Provides greater iris tone and pupil stability for better visualization of the operative field and safe surgical procedures<sup>1</sup>
- Manufactured according to FDA Good Manufacturing Practices (GMP)—eliminates the safety, accreditation, and liability risks associated with compounded products

**OMIDRIA is the only FDA-approved product that delivers an NSAID intracamerally**

OMIDRIA has a unique billing code

**C9447**
