

# OMIDRIA

## Storage and Preparation

**OMIDRIA**  
(phenylephrine and ketorolac  
intraocular solution) 1% / 0.3%

## OMIDRIA has separate payment status in ASCs and HOPDs for 100% of fee-for service Medicare patients\*

The following information is provided to help integrate OMIDRIA into your operating routine.

### OMIDRIA dilution and storage<sup>1</sup>

#### Prior to dilution:

 Store at 20°C  
to 25°C  
(68°F to 77°F)

 Protect from light

#### Easy to integrate into routine operating procedures:

 Add preoperatively to irrigation solution

One 4-mL single-patient-use vial to 500-mL ophthalmic irrigating solution

Can be added to irrigation solution in the surgical suite

No other preparation required

#### After dilution, product can be stored:

 Up to 4 hours  
at room temperature

 Up to 24 hours  
if refrigerated

Do not use if the solution is cloudy or contains particulate matter

\*OMIDRIA qualifies for separate payment across both ASC and HOPD settings as it fulfills the requirements established in the non-opioid as a surgical supply provision by CMS <https://www.federalregister.gov/documents/2024/11/27/2024-25521/medicare-and-medicaid-programs-hospital-outpatient-prospective-payment-and-ambulatory-surgical>

### Indications and usage

OMIDRIA® is added to ophthalmic irrigating solution used during cataract surgery or intraocular lens replacement and is indicated for maintaining pupil size by preventing intraoperative miosis and reducing postoperative ocular pain.

### Important safety information

OMIDRIA must be added to irrigating solution prior to intraocular use.

OMIDRIA is contraindicated in patients with a known hypersensitivity to any of its ingredients.

Systemic exposure to phenylephrine may cause elevations in blood pressure.

Use OMIDRIA with caution in individuals who have previously exhibited sensitivities to acetylsalicylic acid, phenylacetic acid derivatives, and other nonsteroidal anti-inflammatory drugs (NSAIDs), or have a past medical history of asthma.

The most commonly reported adverse reactions at  $\geq 2\%$  are eye irritation, posterior capsule opacification, increased intraocular pressure, and anterior chamber inflammation.

Please see the Full Prescribing Information for OMIDRIA at [www.omidria.com/prescribinginformation](http://www.omidria.com/prescribinginformation).

You are encouraged to report Suspected Adverse Reactions to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch), or call 1-800-FDA-1088.
